Dear Parents and Caregivers,

To complement the cross-curricular subject of Sustainability, students in Years 3-6 will be participating in a Gosford City Council and Kariong Eco Garden program called ‘Wise about Waste’ on Wednesday 6 May 2015.

There is no cost for this event.

This program will highlight the importance of sustainability and environmental awareness. We will begin the day with Mr Walter presenting the results of our school’s waste audit. Students will then rotate between five different groups looking at areas such as ‘History of Waste,’ ‘Shopper Power,’ ‘Land, Litter and Marine Pollution,’ ‘Nature’s Recyclers’ and ‘So Much Stuff.’

The concluding activity for the day will be an event called Wyoming Wombles Shop. This event will promote the reusing and recycling of books and toys rather than throwing them away which uses up valuable land space. Students are encouraged to bring to school on Wednesday 6 May 2015 any book or toy they are willing to swap with another student.

Please note this item should be something your child no longer wants or needs. Students will be given a popstick when they present their book or toy which can then be used as currency to swap for a different item.

Please note it is not compulsory to participate, however those students who do not bring an item in to swap will not be able to take home someone else’s item.

Please fill in the item you give permission for your child to swap and return to your child’s teacher.
